For: SYSTEMS AND METHODS FOR VENT PATH LEAKAGE PREVENTION

**REQUEST FOR RECONSIDERATION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA- 22313-1450

Sir:

In reply to the December 23, 2005 Office Action, reconsideration of the rejection is respectfully requested in light of the following remarks.

Applicants acknowledge the withdrawal of the prior grounds of rejection based on 35 U.S.C. §102 in favor of new grounds based on 35 U.S.C. §103. In particular, claims 1-14 are now rejected under 35 U.S.C. §103(a) over U.S. Patent Application Publication No. US2004/0135855 to Carrese et al. in view of U.S. Patent No. 6,402,308 to Hattori et al. This rejection is respectfully traversed.

Independent claims 1 and 10 recite, *inter alia*, a first container (116), a second container (112) having a capillary medium (111), a passage (118) between the first and second containers communicating the fluid at a level where the passage is wetted with fluid, a ventilation port (122) to communicate air between an interior region in the fluid ejection
